

The Association of Insurance Professionals

THE NATIONAL ALLIANCE
for Insurance Education & Research

******Calling all CISRs******

The National Alliance for Insurance Education & Research has authorized the creation of a referral program specifically designed for the National Association of Insurance Women. This one of a kind program will offer the world class education, professional development and CE credits you need, through instructors that are practitioners of insurance - not professional speakers, at a cost savings that we have not seen before.

When an NAIW member, who is also a CISR, brings a *new participant* to a CISR core course and they both complete it, *the CISR will receive a full scholarship to use toward their next CISR update.* In essence, you the CISR would receive based on your membership in NAIW, two updates for the price of one!

Due to the long standing relationship and support between NAIW and The National Alliance, we are able to offer you this new and exciting program in California.

If you have any questions, please contact Kathleen Soares from the CA Council website or Rob Weidert, CIC at The National Alliance at 760 693 3626.

Referral forms will be available _____
